Customisable Contract Generation → AI-Powered Negotiation Within Word → Execute via DocuSign Integration → Save to Intelligent Repository → Modules for Post-Execution Analysis

"With Luminance, we have everything we need in one place." **KOCH**

TRUSTED BY 600+ ORGANISATIONS

# Next-Generation AI for Contract Negotiation, within MS Word

'Legal-Grade' Chatbot: AI-Powered Q&A and Automated Redrafting

- Ask Luminance's chatbot questions about contracts and receive instant responses, e.g. 'Who are the parties?', 'What is the Governing Law?'

- Apply business-wide to save Legal from answering routine, repetitive queries

- Redraft clauses on-the-fly to quickly amend problematic provisions

- Use Lumi Generate to find the perfect middle ground between counterparty paper and preferred internal positions
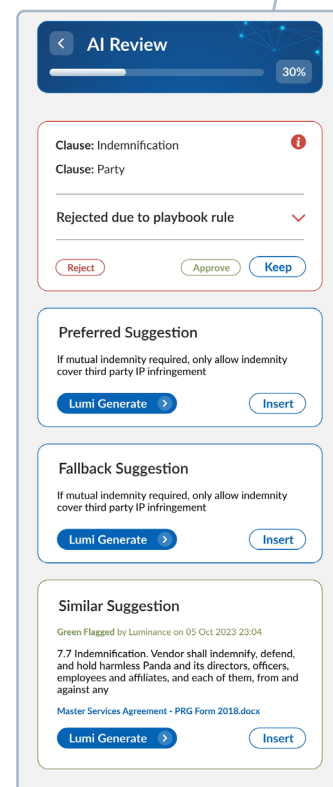

First Pass Contract Analysis and Auto Mark-Up: Focus Attention Where It's Needed

- AI takes a first pass review of any incoming contract, visually highlighting which clauses are acceptable or not, all within MS Word

- Luminance can even bring counterparty contracts into line with gold standards and preferred positions in a single click, reducing time drains on Legal

- Suggested precedent and fallback positions are available at all times via the sidebar

Utilise Existing Institutional Knowledge and Maintain Compliance
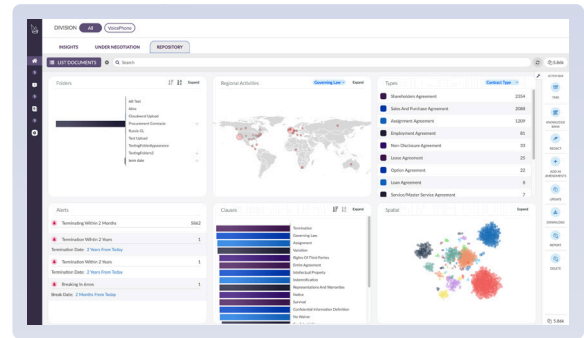

- Luminance automatically suggests acceptable wording from precedent — substitute at the click of a button

- Provide rationale on-the-fly whilst negotiating contracts to better inform future decision-making and prevent loss of institutional knowledge

AI-Powered Insight into All Enterprise Contracts

Granular Insight into All Contracts and Users

- Luminance's AI-powered repository automatically extracts key information from all contracts, whether executed or under negotiation, providing instant insight across over 1,000 legal concepts, such as contract term, clauses present, governing law, etc.

- Automatically highlights areas of risk or business opportunity, e.g. flagging key periods within contracts such as commencement dates, breaks and expiration

- 'Ask Lumi' in the repository helps any business user looking to rapidly locate and understand their contracts, e.g. 'Which of our Sales Agreements are assignable but require written consent?', or 'Do we have unlimited liability in any of our contracts?'

- Provides tools for real-time reporting of user activity to enable effective project insight and KPI tracking

---

"Luminance's AI enables our lawyers to retrieve key information in a matter of minutes."

YOKOGAWA ◆

Emma®
The Sleep Company

📄↑ Doubled the number of contracts reviewed per quarter

📄 Non-legal teams including Sales, Procurement and Finance are fully aligned with Legal on all contractual matters

"This technology has been a game-changer for our business."

"Luminance adds value, speeds up processes and eliminates risks, making the company more efficient."

⌂ Staples™

AI-Driven Legal Process Automation Tools:
Automate Administrative Work and Routine Processes

Automated Contract Drafting

Allows lawyers to create any kind of contract template, enabling employees to generate contracts that meet internal legal standards.

HITACHI
Inspire the Next

🕐 <5 mins from NDA generation to signature

📄 Fewer contracts negotiated on third party paper

"With Luminance, we can eliminate bottlenecks and accelerate our time to signature."

Legal Helpdesk

Provides a centralised system for Legal to communicate with employees requesting contracts, asking queries and accessing legal help.

Drag-and-Drop Workflow Editor

Manages the efficient, compliant flow of contracts around an organisation: automatically assign workflows by virtue of contract properties, including content, governing law, type and language.

LG Chem

🕐 30% time-savings on contract review

💬 Instant contract summary with Ask Lumi

🔤 Language agnostic AI works across multiple languages

"Luminance is a best-in-class AI technology for in-house legal teams."
