"With Luminance, we have everything we need in one place."

KOCH

USED BY 600+ ORGANISATIONS

Next-Generation AI for Contract Negotiation, within MS Word

'Legal-Grade' Chatbot: AI-Powered Q&A and Automated Redrafting

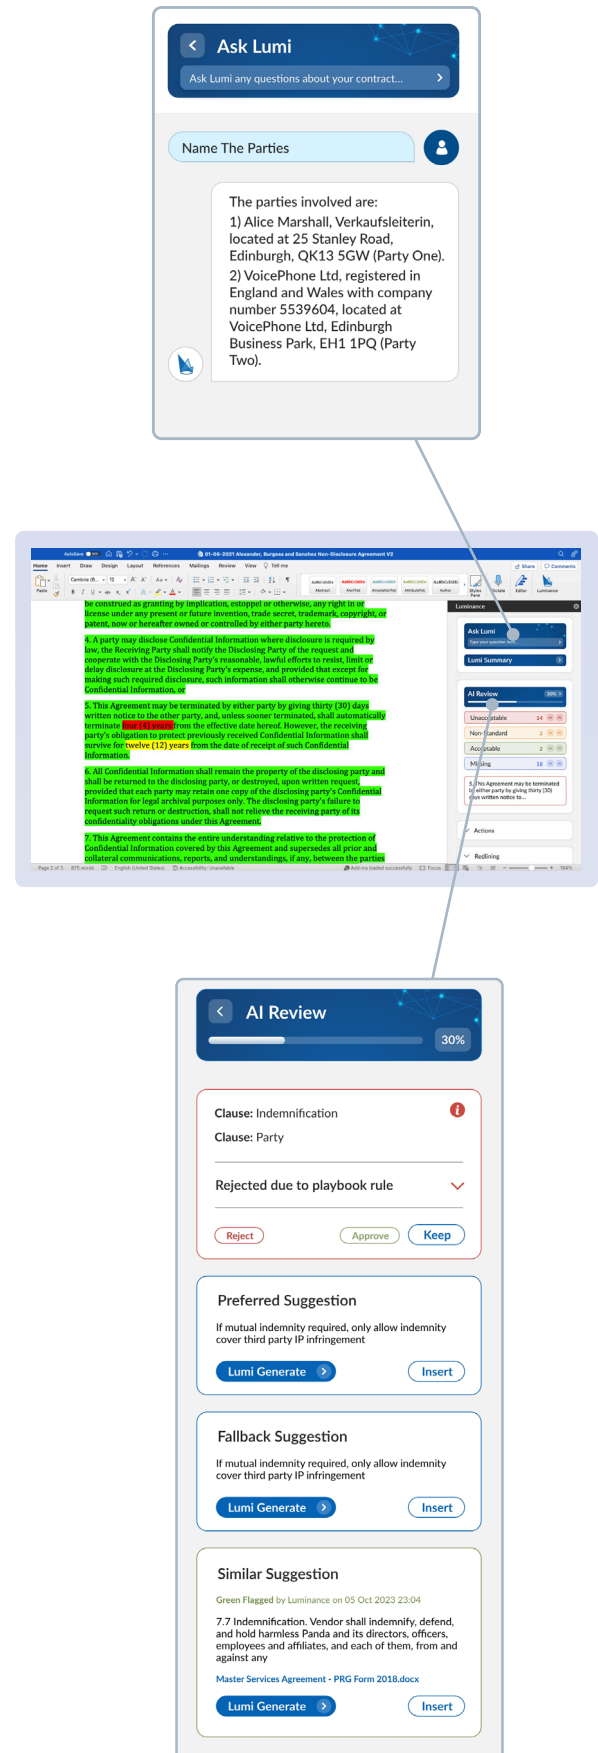

- First-of-its-kind chatbot trained on verified legal documents
- Ask Luminance's chatbot questions about contracts and receive instant responses, e.g. 'Who are the parties?', 'What is the Governing Law?'
- Apply business-wide to save Legal from answering routine, repetitive queries
- Redraft clauses on-the-fly to quickly amend problematic provisions
- Use Lumi Generate to find the perfect middle ground between counterparty paper and preferred internal positions

First Pass Contract Analysis: Focus Attention Where It's Needed

- AI takes first pass review of any incoming contract, visually highlighting which clauses are acceptable or not, all within MS Word
- Suggested precedent and fallback positions available at all times via sidebar

Utilise Existing Institutional Knowledge and Maintain Compliance

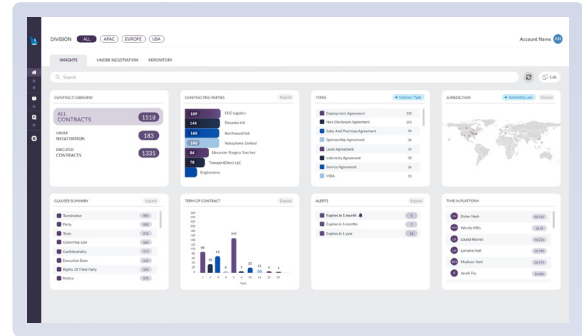

- Luminance automatically suggests acceptable wording from precedent — substitute at the click of a button
- Provide rationale on-the-fly whilst negotiating contracts to better inform future decision-making and prevent loss of institutional knowledge

AI-Powered Insight into All Enterprise Contracts

Granular Insight into All Contracts and Users

- Luminance's AI-powered repository automatically extracts key information from all contracts, whether executed or under negotiation, providing instant insight across over 1,000 legal concepts, such as contract term, clauses present, governing law, etc.
- Automatically highlights areas of risk or business opportunity, e.g. flagging key periods within contracts such as commencement dates, breaks and expiration
- AI-powered search (including conceptual search) and interactive widgets help lawyers respond to business questions with clarity and speed
- Provides tools for real-time reporting of user activity to enable effective project insight and KPI tracking

“Luminance’s AI enables our lawyers to retrieve key information in a matter of minutes.”

YOKOGAWA 

IDEXX
LABORATORIES

20k contracts analysed in just 20 minutes

AI identified all exposure to Russian sanctions

“Luminance gives our legal team the ability to identify any issues in incoming contracts within 30 seconds.”

“With Luminance, we no longer have to rely on external counsel for complex reviews.”

Avianca 

AI-Driven Legal Process Automation Tools: Automate Administrative Work and Routine Processes

Automated Contract Drafting

Allows lawyers to create any kind of contract template, enabling employees to generate contracts that meet internal legal standards.

HITACHI
Inspire the Next

<5 mins from NDA generation to signature

Fewer contracts negotiated on third party paper

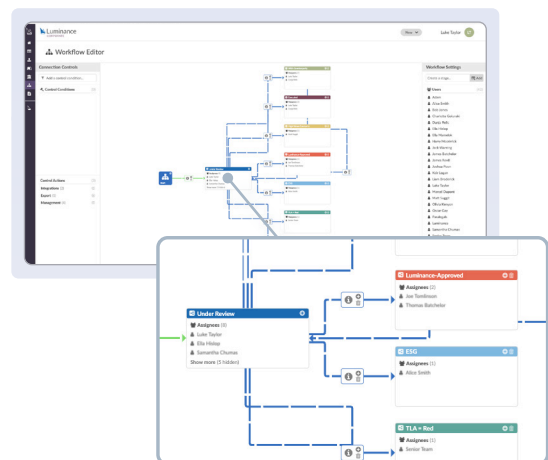

“With Luminance, we can eliminate bottlenecks and accelerate our time to signature.”

Legal Helpdesk

Provides a centralised system for Legal to communicate with employees requesting contracts, asking queries and accessing legal help.

Drag-and-Drop Workflow Editor

Manages the efficient, compliant flow of contracts around an organisation: automatically assign workflows by virtue of contract properties, including content, governing law, type and language.

 proSapient

40% time-savings on admin tasks per week

Workflow allocation reduced from 8 steps to 3

“Luminance’s AI is a must-have for any forward-thinking legal team.”
